THE MISSISSIPPI VALLEY

SOUTH AND WEST

TENNESSEE, MISSISSIPPI, ALA-BAMA AND ARKANSAS: THE COMPANY KNOWN TO THE PUBLIC as the "Mississippi Valley Navigation Company of the South and West," is organ-ized under a charter from the State of Lou-isiana. This charter authorizes a capital stock of five hundred thousand dollars, with

stock of five hundred thousand dollars, with the privilege of extension to one million. That the public may know the exact object of the Company, the third article of the charter is given entire as follows:

"The object of this Company is to construct or otherwise to procure and maintain one or more steamboats or other vessels, to run ou and matigate the Mississippil river, or its tributaries, for the purpose of earrying regist; mails and passengers; to construct dooks wharves, buildings and such other constructions as may be necessary to the building and repairing of vessels, and generally to exercise such incidental powers and privileges as are hereby or may be estimated in the formal proposes aboresaid.

The Company propose, under the provisions of this charter to construct alline of steamers to run between the infiferent ports on the

The company propose, under the provisions of this charter to construct a line of steamers to run between the different ports on the Missiscippi river and its tributaries. They will be constructed upon the low-pressure principle; they will carry less steam; they will make better time, and be in all respects more safe than any description of boats ever placed upon our waters. Divided into distinct compartments, if disaster, whether by the or snags, shall happen to one, the boat is not endangered. In case of fire, apparatus for turning steam upon it will be provided, and it is demonstrated that steam is the most effective extinguisher of fire. In case one compartment is broken through by contact with snags, and fills with water, the others are not endangered, and the boat cannot sink, as pumps, provided for such an emergency will be in instant operation. Safety to passengers and freight is a great end, worthy othe stringgle of the people of the Mississipp valley. the stringgle of the people of the Mesissipp Valley.

Nearly three hundred thousand dollars in money and work has already been subscribes to the capital stock of the Company. The Louisiana Legislature has passed a bill subscribing one hundred thousand dollars of stock for the Company. An additional sum of that amount will, without a doubt, be subscribed by the same body. The thompany have resolved to take lands for stock, and this is the feature to which they desire to call the altention of owners of real estate. The stockholder, in addition to the beneat of the enhanced value of his lands, will be part owner of a line of boats, and be entitled to dividends in their earnings.

From wishing to exchange lands for the stocker the Company will send to the Agent at Memphis a description of them, their productive qualities, the limber, bottom or apland; whether overflowed or not; if overflowed, what proportion; how near to county-lown, to railroad, depot, river; and all facts necessary to afford the Company a satisfactory idea of the land. This may be done by certificates of reliable, disinterested persons residing in the neighborhood. The present actual value of the land may be proved in the same manner, The party offering lands must state in his proposition the lowest figures he will take. The Company will not give exorbitant prices. The titles must be unencumbered by judgments, mortgages, deeds of trust, tax titles, or otherwise. This may be shown by official certificates of judges, clerks, sheriffs, or the opinions of respectable attorneys. This is believed to be the best opportunity to dispose of surplus lands in the South and West that has yet been or can be offered.
